Topmet Trio 10 LED profile

Alu profile for LED stripes, intended for mounting in corners. The simple shape without a back, makes it easy to mount on uneven surfaces.

Alu profile for LED stripes, intended for mounting in corners. The simple shape without a back, makes it easy to mount on uneven surfaces.

This profile can be screwed on or glues on. There are no clips for this profile. If screwed on, you will have to countersink the screws, so that the stripe can be set flat.

There are alu-profiles for 8 to 10mm LED stripes, plastic front in white or frosted and end-caps.
