Avide RGB Light Stripe kit

5 or 10 meter multicolor flexible RGB light stripe with changing modes and 230V powersupply. With and without WIFI control

Multicolor flexible RGB light stripe with changing modes.

The set is made in different versions.

* Standard models include IR remote control and power supply.

* WIFI / Tuya models can be controlled via App, Alexa and Google.
It also includes an IR remote control, which can be used after setup.

In addition, you can choose how much LED stripe you want, respectively 5 meters or 10 meters (2x 5m roll).

The 10 meter models also have "MUSIC Control" which makes it possible to make the light flash along with the music in the room.
