LED Strip with Side-LEDs, 50cm - 24V

A special LED stripe for 24V that emits light to the sides and not to the front as usual. Can be used for edge lighting and signs.

A special LED stripe for 24V that emits light to the sides and not to the front as usual. This can be used for edge lighting and signs, where depending on the design, it can be difficult to mount regular LED stripes.

There is 3m tape on the back of the stripe, for easier mounting. You can cut the stripe every 10 cm, where it has been marked.

The stripe is sold in units of 50cm, but can be delivered in max. lengths of 5 metres. If you order 5 units, your receive 5 x 50cm = 250 cm in total. You can then extend or cut it as needed.

Specifications

Width	8mm
Consumption per metre	4.2 Watts ~ 350mA
LED per meter	60
LED Type	SMD 0402
Light Scattering	120 ~ 140 degrees
Division	10cm
Voltage	24Vdc

Red
SKU 269151
Lumen: 150
Color: Red ~625nm
Voltage: DC24V
Watt / m: 4,8 Watt
LEDs / meter: 60

Blue
SKU 269150
Lumen: 75
Color: Blue ~465nm
Voltage: DC24V
Watt / m: 4,8 Watt
LEDs / meter: 60

Green
SKU 269152
Lumen: 300
Color: Green ~525nm
Voltage: DC24V
Watt / m: 4,8 Watt
LEDs / meter: 60

Cool White
SKU 269154
Lumen: 600
Color: 6000K
Voltage: DC24V
Watt / m: 4,8 Watt
LEDs / meter: 60

Warm White
SKU 269155
Lumen: 550
Color: 3000K
Voltage: DC24V
Watt / m: 4,8 Watt
LEDs / meter: 60
