230V ~ 24V DC Transformer with Push Dim

24VDC transformer, where the dimmer is built-in and managed by Push DIM.

24VDC transformer, where the dimmer is built-in and managed by Push. The transformator has a precise dimming, from 0.1% to 100%, and since it is PWM dimming, it does not change the color nor the quality of the light (CRI).

The transformator has built in protection against short-circuit, overheating, overconsumption and over-voltage. See the datasheets for more facts and details about connecting the transformer.

75W
SKU 504379
Input voltage: 100-240VAC
Power: >0.99
Output voltage: 24VDC
Consumption: 75W
Current: 3.12A
Temperature: - 30℃ ~ 60℃
Weight: 490
Dimensions: 34 x 204 x 62mm

150W
SKU 504380
Input voltage: 100-240VAC
Power: >0.99
Output voltage: 24VDC
Consumption: 150W
Current: 6.25A
Temperature: - 30℃ ~ 60℃
Weight: 580
Dimensions: 36 x 270 x 55mm
