Transformers for Installation - 230VAC - 24VDC

A standard transformer that is used for fixed installations. Screw-terminals on the inputs and outputs. 230V to 24V DC.

A standard transformer that is used for fixed installations. Screw-terminals on the inputs and outputs. The transformer is connected to 230V on the input and it sends 24V DC out on the output. They are primarily intended for LED installations that requires 24V.

There are screw-terminals on both the input and output.

Specifications

Ambient -20°C til +45°C

625mA - 15W
SKU 504205
Dimensions: 17 x 130 x 35mm

2500mA - 50W
SKU 504215
Dimensions: 19 x 162 x 60mm

4167mA - 100W
SKU 504225
Dimensions: 29 x 170 x 45mm

1250mA - 30W
SKU 504210
Dimensions: 18 x 156 x 50mm

3125mA - 75W
SKU 504220
Dimensions: 30 x 201 x 63mm

8333mA - 200W
SKU 504230
Dimensions: 32 x 195 x 67mm
