BA9S Canbus, 50W CREE LED, 10-30V

Powerful BA9S LED bulb with 10 powerful 5W LEDs. The light output corresponds to a 25W light bulb.

Powerful BA9S LED bulb that fits in original sockets. The bulb has 10 powerful 5W LEDs that correspond to a 25W light bulb, whereas a normal BA9S typically only uses 4W. Due to the higher brightness, you have to be aware that the lamp will light up significantly more.

With 2 LEDs on each side of the bulb, it will light up the whole lamp, and with its 2 LEDs at the tip of the bulb, it will also give a bright light forward.

The 50W is a rating of the LEDs, where the real consumption is 4,5W.

With the high consumption of the LED, you can trick Canbus in most models. If not, it can be necessary with external load resistors.

You can of course use the bulbs on cars without Canbus.

Ref. Nr: BA9s, T4W, 233, 12929, 13929, 12V, 24V

Xenon White
SKU 120985
LEDs: CREE, 10 x 5W
LED placement: 4 x 2 LEDs in sides - 2 LED in front
Consumption: 4,5W
Equivalent: 25W incandescent
Color temperature: 6000K
Dimensions: Ø12 x 42mm

Yellow
SKU 120986
LEDs: CREE, 10 x 5W
LED placement: 4 x 2 LEDs in sides - 2 LED in front
Consumption: 4,5W
Equivalent: 25W incandescent
Dimensions: Ø12 x 42mm
