Cable with 4mm banana plug

High quality cable with 4mm banana plug. Protection cover insulates the plug when not in used. Stackable.

High quality cable with 4mm banana plug. The smart protection cover insulates the plug when not in used, and prevent unintended connections and shortcircuits. The plugs have holes in the end so you can insert another plug, which means they are stackable.

The cables are classified CAT II 600V (EN61010)
