Stainless outdoor wall light for GU10

Nice wall light in stainless steel, intended for mounting outdoors on wall or in the garden.

Nice and elegant wall light in stainless steel, intended for mounting outdoors on wall or in the garden. The lamp is available for 2 pcs GU10 bulbs, that can light in two directions.

The lamp can be used everywhere outdoors, eg. for lighting up entryways, walkways, driveways, patios etc.

The lamp can easily be taken apart for mounting or when replacing bulbs. As the lamp is more or less maintenance free, as it made in stainless steel. Gaskets in the joints protects the bulbs against water.

All GU10 bulbs in standard length can be used, but it is possible to fit maximum 64mm bulb length. We recommend LED bulbs for these lamps.
