M8 bolt with round unbrako head

Strong M8 bolt that fits in to parts with M8 thread, and in the ends of serie 40 with cut threads. Multiple lengths.

Strong M8 bolt that fits in to parts with M8 thread, and in the ends of serie 40 with cut threads. Available in 25mm and 30mm lenghts.

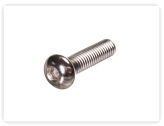

The head of the bolt is 13.2mm in diameter and 4.2mm high, which makes it useful for hidden joints. You thread a hole in the profile, and screw in the bolt. You then slide another profile over the bolt, where after you tighten the bolt through a hole in this profile.
