Philips X-treme Vision Moto H7 12V +130 % 1 pcs.

Powerful halogen bulbs in Philips X-treme vision series, specifically designed for motorcycles.

Powerful halogen bulbs in Philips X-treme vision series, specifically designed for motorcycles. The bulbs give 130% extra light compared to a standard halogen bulb.

The powerful light of the bulb makes you more visible, but more importantly, it also gives you better visibility on the roads at night.

The bulbs are made in quartz, which is more durable, this gives you better durability and ensures that they do not run under vibration. The quartz glass makes it possible to raise the gas pressure, thereby increasing the light output.

The bulbs are e-approved for road use.
