Matronics Aquaday - RGB+CCT aquarium light 12VDC

Great aquarium light with large adjustable color spectrum. RGB, warm white and cold white. Produced in requested length.

Great aquarium light with a large adjustable color spectrum, where you control both red, green, blue, warm white 3000K and cold light 6000K separately. With the color control that is bought separately, you can easily adjust and find the optimal color for exactly your aquarium.

The lamp is made of anodized aluminum, and the light sources are encapsulated in transparent polyurethane. The cables are resistant PVC.

We can produce the lamps in exactly the length you want, you just have to note this in the remarks field when ordering. Note that the cable comes out from the end of the lamp, and the standard length is 3 meters.

Mi-Light RGB+CCT controller

The aquarium light is easily connected to the Mi-Light RGB+CCT controller, and this is then controlled wireless via the separate remote. There are screw terminals for all wires, and DC connector or screw terminals for the power supply.

Wire: Controller
Gray : WW / Warm White
Blue : CW / Cold White
Yellow : B / Blue
Green : G / Green
White : R / Red
Brown and pink : + / Plus

Mi-Light RGB+CCT remote

The remote is easly connected to the controller in one of 8 zones. You can then easily adjust color, color temperature, and brightness on the touch-buttons, and you can activate some of the built-in effect functions.

Power supply

The power supply is bought seperatly, as this depends on exactly your setup. You can supply multiple controllers on one powersupply, and multiple lamps on one controller. Contact us if you are looking for guidance.

Lamp, Max 50cm
SKU 650710
Voltage: 12V
Consumption: 11W
Lumen: 1100 lm
Color temperature: Adjustable 2700K - 20000K

Lamp, Max 100cm
SKU 650711
Voltage: 12V
Consumption: 22W
Lumen: 2200 lm
Color temperature: Adjustable 2700K - 20000K

Lamp, Max 150cm
SKU 650712
Voltage: 12V
Consumption: 33W
Lumen: 3300 lm
Color temperature: Adjustable 2700K - 20000K

Lampe, Max 200cm
SKU 650713
Voltage: 12V
Consumption: 44W
Lumen: 4400 lm
Color temperature: Adjustable 2700K - 20000K
