Prolumo Work Cube - 9W LED work light

Powerful LED worklight in compact size, that still has a high output of 810 lumen. Spot lens gives you a focused light.

Powerful LED worklight in compact size, which still has a high output of 810 lumen. The black aluminium-housing protects LEDs, optics and electronics, and also works as a heat sink.

The 3 LEDs are each 3W, and the optics is available with a narrow beam. You can also mount both models side by side, as they complement each other great.

The solid bracket on the bottom of the lamp ensures a secure mount, with a bolt for fastening in a surface or similar. The lamp can be turned and tilted, where after you easily tighten it in the wanted placement.

40cm Wire.
