Gas burner - Weller WT13EU

Large professional handheld gasburner for shrink tubing, solder sleeves, soldering and similar tasks.

Large professional handheld gasburner for shrink tubing, solder sleeves, soldering and similar tasks. The gasburner has piezo ignition and wheel for adjusting the flame size. It is possible to lock it on on after igntion, where after it can run about 1 hour on a full tank.

The gasburner has a wide base, for safe use on a desk. The burn-chamber is heat resistant ceramic, that ensures that the burner does not overheat, even after continuous use.

There is a child-lock built-in.

The burner is only intended for propane-butane gas, with a flametemperatur of 1300 degrees. Sadly it is not possible to send gas with regular mail.
