Serie 30 - Hammer bolt M6

Bolt that fits in to the 8mm slots of series 30 profiles. The bolt is turned 90 degrees in the slot, where after it can be tightened.

Hammer-bolt that fits in to the 8mm slots of series 30 profiles. The flat sides makes it possible to insert the bolts anywhere in the tracks. The bolt is turned 90 degrees in the slot where it is locked, where after it can be tightened.

The bolt is great for use with brackets and similar, as you can fasten using a nut, that can be fastened with high torque.

The length is the thread including the 2-3mm in the bottom.
