Cigar plug mini male (DIN 4165)

Small cigar-plug that is typically found in newer cars and trucks. Used for connecting accessories to 12V/24V.

Small cigar-plug that is typically found in newer cars and trucks. Used for connecting accessories to 12V/24V.

The wires are soldered on to the two metal-parts in the plug. The middle pin is positive and the pins in the sides are minus as standard.

The connector uses a zig-zag pattern as strain relief. Then simply screw the connector back together again.
