Waterproof fuse holde for panel mounting, glass fuse

Waterproof fuseholder for 20x5mm, that is mounted in a panel, which makes it easy to replace the fuse eg. in an enclosure.

Waterproof fuseholder for 20x5mm fuses. mounted in a panel, which makes it easy to replace the fuse eg. in an enclosure, without having to open this. The top is easy screwed off with a screwdriver, where after this is easy pulled off. The fuse then sits in the top - taking the old out and putting in a new one is done easily.

The holder is mounted in a 13mm hole, with the included nut and rubber gasket.

There are 4.8 x 0.5 quick connects on the bottom for easy connecting.
