Thread cutter / Chip breaker taps

Standard thread cutter, that can be used for our aluminium system profiles, eg. for cutting threads in the ends.

Standard thread cutter, that can be used for our aluminium system profiles, eg. for cutting threads in the ends. We have cutters in the standard system profile dimensions 5, 6 and 8. Typically the holes in the profiles are dimensioned ready for cutting the thread.

The chip breaker taps are used for through holes, as they push the threads in front, down the hole.

Dimensions

Thread	Hole
M5 x 0.8	4.2mm
M6 x 1.0	5.0mm
M8 x 1.25	6.7mm
M10 x 1.5	8.5mm
