Gray LED Candle with a Moving Flame

A nice gray LED candle with an artificial flame that both moves and flickers slowly. Ø7.5 and 10 or 15 cm tall. With a timer function.

A nice gray LED candle with an artificial flame that both moves and flickers slowly. Available in Ø7.5 and 10 or 15 cm tall. Resembles a normal colored gray candlelight.

Timer function

There is a switch on the bottom to switch the candle on and off and also to set the built-in timer. Once set to the timer mode, the candle will light on for 6 hours and then turn itself off for 18 hours. After that it starts to light again.

They use 2 x AA batteries. There are no supplied batteries.
