V-slot - Plate - Motor holder

Aluminium plate for fastening a NEMA 17 or NEMA 23 motor to a V-slot profile.

Aluminium plate for fastening a NEMA 17 or NEMA 23 motor to a V-slot profile. Typically this is mounted in the end of a profile with a toothed belt wheel.

The holes in the plate fits the NEMA motors, while the oblong holes in the end are used for tightening a belt.
