Prostrobe - Mini Rotor, R65

Compact and solid LED rotor and flash beacon with magnet base and cigar plug, for fixed or momentary mounting on car and truck.

Compact and solid LED rotor beacon with magnet base and cigar plug, for fixed or momentary mounting on car and truck. The rotor beacon is available with 3 meter cable, or with 85cmto 350cm spiral cable.

The lamp has a plastic base and top, and a transparent 360 degree lens. There are 18 high power 1W LEDs built in. There is magnets in the bottom for momentary mounting (should not be used during driving), and 3 holes for fixed mounting.

There are 7 functions that can be chosen with the button on the cigar plug, alternatively you can disassemble the plug, and connect the control cable to a switch. The functions are strobe functions and rotor-beacon.

The yellow is ECE R65 and R10 approved, allowing it to be used on public road.
