Wire with connector for Hella LED Celisrings

Wire with original connector, for connecting the LED emitters in Hella Celis lamps. This is used when the old do not work anymore.

Wire with original connector, for connecting the LED emitters in Hella Celis lamps. This is used when the old do not work anymore.

The connector is normally connected the the built in LED driver in the Celis lamps. If there is a bad connection, a solution would be to replace the connectors.

If the driver is defective, we recommend you replace the complete unit with our.
