LED indikatorlampe, 9-32V

Compact and powerful 6 LED-indicatorlamp-series with yellow / orange light and clear or orange glass. Can be connected to 12V and 24V vehicles.

Small, compact and powerful 6-sided LED indicatorlamp-seies, available with yellow / orange light and clear or orange glass. The LED lamps are very low at only 22mm in hight, and can therefor be used fo r many different purposes such as sidemarker, toplamp and indicatorlamp.

The LED lamps are easily mounted with 3M tape that comes on the underside of the lamps, where the 30cm wire also sits. All electronics are sealed / enclosed in a polycarbonate housing so they can be mounted almost anywhere. The manufacturer provides a 5-year warranty.

The LED lamps are ECE approved and E-marked
