LED low-profile combination-lamp 12 - 24V

Very small and compact LED combination-lamp with the size of a strobe- or marker-lamp, with built-in tail-light, stop-light, and indicator-light in one lamp.

Very small and compact LED combination-lamp can be compared to strobe- or marker-lamp in size. The lamp has more or less everything you need with its built-in tail-light, stop-light, and indicator-light in one lamp.

The lamp is completely waterproof (IP67) and protected against impacts and vibrations. Because of this, the manufacturer issues a 5-years warranty.

The lamp is ECE and EMC approved.
