Serie 30 - Flat bracket - Rotatable

Smart 6mm brackets for series 30 profiles, that are rotatable 45 or 90 degrees. They can be used for fixed, adjustable, and movable joints.

Smart brackets made of solid36mm aluminium, that are rotatable 45 or 90 degrees.

They can be used for fixed, adjustable, and movable joints, depending on the accessories you use. The holes and slots are for 6mm bolts. Locking handles are an obvious choice in the slot if you want an adjustable joint.
