T-track guide-rail system - Profile

Standard profile in our T-track system, that fits the sliders and t-nuts from the same system. 30 x 12.8mm op til 3 meter.

Standard profile in our T-track system, that fits the sliders and t-nuts from the same system. The profile-dimensions are 30 x 12.8mm with 19.3mm track width.

The profile is available in 199, 200 and 300 cm lengths without holes, while the 1 meter is also available predrilled and countersunk holes for easy mounting.

The profile is very robust an durable, and the surface is anodized.

The profile is quickly cut to length with a circular saw. You can easily drill and countersink holes in the aluminum.
