T-track guide-rail system - Feather board set

Complete set with 2 featherboards, bolts, gliders, spacers and finger-nuts. Fits in to T-track rails and the fence-profile.

Complete set with 2 featherboards, bolts, gliders, spacers and finger-nuts. Fits into T-track rails and the fence-profile.

When a part is being fed through a machine, the featherboard prevents that itthe part can begin to reverse and shoot back. The thin feathers/fingers will bend when the part is put in, and lock it in place if the part reverses direction. If you use one both vertically and horizontally the part is securely fixed when used in eg. a saw or mill.

The following parts are included:

- 2 featherboards
- 4 plastic gliders
- 4 short bolts for plastic gliders
- 2 long bolts for plastic gliders
- 4 short bolts for fence profile
- 2 long bolts for fence profile
- 4 fingernuts
- 2 long spacers
- 4 short spacers
