# Tec7 XILICON 400ml

100% silicone spray that can be used on almost all surfaces.

Here comes the perfect silicone spray that you can use for many tasks.

It is sprayed over the desired surface. The silicone that is sprayed out is very thin, transparent, durable, non-flammable, odorless, dirt-repellent.
When the lubricating film is dry, it is not acid-forming, it prevents freezing, nor can it evaporate away.

Used effectively on: All metal, wood, leather, plastic, lacquer, rubber, fabric, vinyl and paint.

- The spray prevents freezing of rubber gaskets / strips
- Moisture protective on wood, leather and textile
- Protects synthetic materials, electrical equipment, rubber and metal.
- Lubricates mechanical and moving parts.

The properties of the spray make it resistant;

Opposite pressure up to 1400kg / cm
Temperatures from -70 degrees all the way up to 280 degrees.

Application:
- The spray is kept at a distance of approximately 30 cm to the desired applied surface.
